

Spiritualist Philosophy
Saturday 3rd August 10 am – 4 pm £35
with
Minister Janet Parker

Many people make the mistake of thinking that the only good philosophy is that which is given in trance from spirit. What do we need for good philosophy to take place? Total interest in a subject, knowledge about it and to recognise that working in an empowered state gives rise to furthering our ideas and allowing our minds to take flight. Good philosophy is good philosophy wherever it comes from. Philos - Love of, Sophism –

Wisdom. Socrates aimed to guide his pupils into discussions about man's existence and purpose in this world. He wanted them to discover through their own ideas and opinions and to listen to the opinions and ideas of others with an open mind.

“Our Souls do not grow with experience, our souls grow when we understand that experience”

Everyone is welcome. Payment upon arrival (cards not accepted). Tea & Coffee will be provided. Please bring your own lunch

The London Spiritual Mission. 13 Pembridge Place, London. W2 4XB

Janet Parker is a Minister of the Spiritualist National Union. She has been involved in Spiritualism for over 30 years. Janet has been a Course Organiser and Tutor at the Arthur Findlay College since 1992. Now living back on the West Coast of Scotland where she was born with her husband Trevor. She has two sons and three granddaughters and is passionate about family. "I have been so privileged to work in many places around the world, it has brought me incredible friendships. I love to bring comfort and hope to those who need it.

For me the Religion of Spiritualism completes my life. It may not be perfect but it's the closest I can find to living a life with God at the heart of it. It's important to me to share my passion of teaching, there is a wonderful saying "A great teacher has failed more times than his student has ever really tried" I will never ask of my students something that I have not done or will not try to do. I try to teach by not putting there something that doesn't exist within them but try to find what IS there and to encourage that to blossom. I love to demonstrate my mediumship but I also feel strongly about reaching all souls through speaking about the Philosophy of life. I mean life, both in this world and the next, for life is life and there is no division only progression.

Working with the Soul has become a big part of my life. I have been involved with a group in Geneva called a School for Life and Afterlife. By being balanced in our own lives we are better equipped to bring balance to the lives of others. This means working on ourselves, on our own insecurities and fears. When you are better in balance with yourself, your mediumship works better, you become more alive and aware of all that is.
